

2012 EJIF SEMINAR

# Maintaining Compliance: New, Changing & Problematic Rules

## ENVIRONMENTAL JOINT INSURANCE FUND MEMBER:

The Environmental Joint Insurance Fund (EJIF) wishes to extend an invitation to you and other members of your Municipality or Utility Authority to attend an upcoming workshop to discuss maintaining compliance with new, changing and problematic rules at your facility. Administrators, Clerks, and DPW Directors are urged to attend.

This year's seminar will cover a series of environmental regulations that will span new or confusing air regulations, aspects of the NJPDES stormwater permit that are difficult or costly to comply with, implementation reminders regarding USEPA's oil pollution prevention program, tips and guidance for recycling programs, often-seen violations with underground storage tank recordkeeping, a recap of recent and common insurance claims, and details of EJIF policies regarding unregulated heating oil tanks (URHOTS) and aboveground tanks with underground pipes (UGPs). As always, plenty of time will be left at the end of the seminar to discuss the issues and questions brought to the floor by attendees. Bring your problems with you!

The following credits will be available for attendees:

- **Public Works Managers: 2 Technical**

Please feel free to use the other half of this document to reserve your place. The program is being offered at various times and places throughout New Jersey. You may sign up for the session most convenient to you. There is no charge for attending. If you have any questions, please feel free to contact Bettina Blom of Birdsall Services Group at **800-879-6681 x1311**.
