2019 EJIF SEMINAR Spill Prevention, Control, and Countermeasures (SPCC)

ENVIRONMENTAL JOINT INSURANCE FUND MEMBERS:

EJIF is extending an invitation to you and other members of your municipality or utility authority to attend an upcoming workshop to discuss maintaining compliance with Spill Prevention, Control, and Countermeasures (SPCC) requirements applicable to your facility. Administrators, clerks, and DPW directors are urged to attend.

This seminar fulfills facilities' annual SPCC training requirement and cover topics related to spill prevention and preparedness, including SPCC plan development and objectives, regulatory background, organizational requirements, release prevention and response, and spill controls and countermeasures. As always, plenty of time will be left at the end of the seminar to discuss issues and questions brought to the floor by attendees. Come ready to share your experiences and challenges on this topic!

The following continuing education credits have been approved by the NJ Department of Community Affairs:

Public Works Managers: 2 Technical
Municipal Finance Officers: 2 Ancillary Subjects

Please use the adjacent links to reserve your spot at the seminar. The program is being offered at various times and locations throughout New Jersey. You may sign up for the session most convenient for you. There is no charge to attend. If you have any questions please contact **Richard Erickson of First Environment at rickson@firstenvironment.com or 973.334.0003.**
